## UX Designer

With 3+ years of experience as an individual contributor in fast-paced startups, and having worked on 20+ live projects, I bring strong ownership, a steep learning curve, and agility in adapting to evolving priorities. My experience spans cross-team collaboration across B2B fintech SaaS products and B2C consumer apps, including games, crypto products, trading platforms, and dashboards.

## EXPERIENCE

**Rever | UX Designer** *April 25 – Present*

- Redesigned Rever's logo and website, optimising navigation and visual hierarchy to secure the #1 SEO ranking in the US and a 113% increase in global impressions within two months.
- Architected the system design and UI for a B2B fintech product, reducing user drop-off and driving a 25–30% improvement in funnel completion rates.

**Etv Bharat | UI/UX Designer** (Contract) *February 25 – April 25*

- Designed core game mechanics and UI for ETV Bharat, creating an engaging player interface and intuitive visual logic from the ground up.
- Defined the product vision and pitched design frameworks to stakeholders, effectively communicating the balance between technical feasibility and player experience.

**By the gram| Creative Designer** *January 24 – February 25*

- Architected brand identities for 6+ clients and led product design for Buds (Dubai), driving a 40% increase in app downloads and a 25% reduction in support queries.
- Directed high-scale campaigns for Nykaa, achieving 67M+ views for a viral bridal launch and designing strategic pitch decks for 30+ major clients like Netflix and Prestige.

**Blocsys | UX Designer** *November 21 – December 22*

- Designed UI/UX for 15+ B2C crypto and gaming projects, including Klink, which achieved a 68% task completion rate, 500k+ downloads, and a 4.5-star rating.
- Developed interfaces for 3+ AI Agent platforms and Fintech SaaS, optimizing perpetual and prediction trading dashboards to drive a 22% cross-market conversion rate.
